

Consultation Notice

Chesterton Community Sports College is entering into a period of official consultation on a proposal to expand its provision.

We wish to build a new high quality block in order to expand our current net capacity to 1050 which would mean we could increase our PAN to 210 pupils. This is due to a change in local demographics and an increase in the demand for places.

The consultation will take place between Tuesday 21st November until 12 noon on Tuesday 19th December 2017. You can take part by emailing your views to:
