

## Vocational Studies Department

**Vocational Studies is a successful, popular and expanding department at CCSC. Students have the option to study the following OCR Cambridge Nationals at Key Stage 4.**

- **Health and Social Care**
- **Child Development**
- **Business and Enterprise**
- **iMedia**
- **Sports Science**

The department consists of a Head of Vocational Studies, individual subject leads and utilises the expertise of staff across the school. We believe Vocational Studies offer students the opportunity to develop knowledge and skills in industries which they have a genuine interest in and where they may choose to pursue a career.

The department has access to numerous classrooms across the school each equipped with large TV screens and Apple TV. We also have access to the IT suite equipped with Apple Mac computers.

All staff at CCSC have their very own personal MacBook Air and iPad: these are essential tools in the development of modern education. Combined with this, all pupils have personal iPads that can be used in lessons to facilitate and engage learning further. The pupils and teachers use Microsoft Teams as their teaching and learning platform.

The department runs a range of enrichment opportunities such as career events, guest talks and work experience opportunities. In addition to this booster classes are provided to further support the learning of students who opt to take a vocational subject.
