Today we've been getting right into the Christmas spirit. We have watched a lovely video sent to us by the fabulous staff and children at [Chesterton Community Sports College](#), they were singing Christmas songs (as they can't visit us like they normally would). Our residents loved it and even sang along. We have also been trying on some festive props ready for the big day 🎄 🍷 🎅 🎶 🥳

Lily and Harry's Christmas Gift for Sick Kids

Christmas is a time for giving and Harry and his sister saw this as a great opportunity to give back to Birmingham Children's Hospital.

Harry Talbot from Newcastle under Lyme is a good family friend of Mr Farr. Harry has spent his whole life in and out of hospital, first being rushed to Birmingham Children's Hospital at just two-hours-old and has received 3 life saving operations since.

Together Harry and his sister have raised over £3,000 to say thank you to Birmingham Children's Hospital for all they have done for Harry and his family.

'Dictionary Dee's Final Pupdate'

Over the Christmas break, the puppies have **grown** a lot! They eat 4/5 times a day and are in the process of **toilet training!** All of the puppies have homes to go to, and **one very lucky puppy** is going to **my dad, Mr Locker**. So if he's looking worn out, it'll be because he's got an energetic springer spaniel keeping him on his toes. As much as I have **enjoyed** looking after them and giving you weekly pupdates, I will be glad to see them all go to **lovely new homes**.

Something so simple and effortless has provided me with the confidence to go about my lockdown life safe in the knowledge that I tested negative for Covid-19. – Mr Mackin

Maths Challenge

Mobile phone is £105 and case is £5.

x = mobile phone and y = case
 $x + y = 110$ (i)
 $x - y = 100$ (ii)

Equations (i) – (ii)
 $2y = 10$ so $y = 5$

Substitute y back into equation (i)
 $x + 5 = 110$ so $x = 105$
