### Jobs

I got my first job at 17 as a waitress at Pizza Hut. I absolutely loved this job, I worked here throughout college and university.

After finishing university I got a job as an Events Assistant but it wasn't my cup of tea!

I was a shoe fitter at Clarks and also worked as an activities co-ordinator in a care home before deciding I wanted to work in a school.

### When I was younger, I wanted to be ...

In High school I really wanted to be an actress or a Drama teacher. When I was at college I got involved in a lot of organising events and enjoyed it, so I thought I would do a degree in events and be a wedding planner.

As I got older, I realised I wanted to do a job that involved helping young people.
