Y11

Alfie Boulton 7YM

For his hard work in lessons and contribution to peer mentoring.

Olivia Pye 8JST

For receiving several event logs this week for her impeccable behaviour, 100% effort and focus. Thank you for setting such a brilliant example, Olivia!

Jay Usher 9HM

for a real improvement in behaviour and attitude. I am really impressed by how Jay has returned and I hope it continues!

Kai Smith 10AR

He has increased his effort in his subjects recently and it has been noticed by many of his teachers. His attitude to work has improved significantly which has resulted in him achieving higher grades and earning lots of event logs. Well done Kai!

Mollie Mae

Shaughnessy 11PY

Much improved attitude to lessons and school life.

Tayo Houghton 7NW

For making such a positive start to CCSC, and for being a helpful and polite young man.

Daniel Wragg 8LCA

For his excellent work and behaviour in Science this week and independent work in MFL. Keep it up!

Elisha Brookes 9LW

For consistently going above and beyond in all of her lessons. She always tries her best and it hasn't gone unnoticed!

Emily Taylor-Cottam 10KDR

She always gives her best and always willing to answer questions in lessons. Well done!

Troy Barlow & Joel Sayers 11KE

Both achieving Grade 5 in their most recent Science exam. Both showing they can do it!

English Stars of the Week

KW: Thomas Arnold 9/1X - Tom has been attending boosters and putting in loads more effort with his English, lovely attitude and improvement! 🌟

RF: Storm Webb (9/4) for consistently working hard in lessons and challenging herself to improve her poetry analysis.

EW: Aafreen Ahmed, Y9 for her amazingly perceptive analysis of poetry, fantastic contributions to class, and conscientious approach to English! Amazing 😊

GA: Jack Hassett Y9 for amazing contributions during our poetry analysis lessons. Jack has demonstrated a really perceptive and sophisticated understanding of the material we have covered so far. I am really impressed!

KM: Caitlyn Cavanagh (9/2y) for a fantastic attitude to learning, brilliant contributions to class discussion and going above and beyond every single lesson! Well done, Caitlyn. #happymelv

AP: Alfie Boulton (7/3), for his effort when writing PEE paragraphs. Alfie has worked really hard to complete all work set to the best of his ability. Well done, Alfie!

KDR: Gracie Hemmings – for trying really hard this week when looking at the poem 'Medusa'. Gracie shared some ace ideas and produced a some beautiful work.

FURTHER

What are my Options?

Apprenticeship

An apprenticeship is where you work, study and earn a wage. They are a popular option and as a result, very competitive. Entry requirements vary considerably but most companies will at least be looking at your Maths and English results. Apprenticeships are available in a wide range of subjects and in certain areas you can even study right up to degree level

Find out more about apprenticeships in our January issue.

Traineeship

A traineeship is an opportunity for you to learn on the job at a high-quality work placement. You'll also develop the wider skills that you will need in the workplace by completing work preparation training. It can be a stepping stone to an apprenticeship or employment which can last anywhere between 6 weeks to 1 year, but in most cases lasts for less than 6 months. It's a good option if you aren't quite ready for an apprenticeship and don't feel like a college course is right for you.

A Levels

A Levels are a popular choice and many people take this route if they want to progress to University. Usually you need to pass at least 5 GCSE subjects at grade 4 or above including English Language and Maths. Often you will need a higher GCSE grade in the subject that you wish to study at A Level. Most students choose 3 subjects to study over the 2 year course, but higher achieving students can choose four.

Please note: A Levels tend to be assessed mainly by exams so you need to be confident with revision and able to cope with exam pressure.

See page 6-7 for help with choosing your A level subjects.

GCSE Resits

If you're worried that you might just miss out on the grades you need then you might want to consider resits as an option. This one year course enables you to select several GCSE subjects to retake. Check with the college to find out how many subjects you can choose and which subjects are available. Usually this route is for students who are very close to passing, for example if you get a grade 3 but you need a grade 4.

BTEC / Vocational Courses

Vocational courses come in a wide range of levels, suitable for people of all abilities, so regardless of your GCSE grades you should be able to find a course for you. Taking this route can also lead to University level study. For more about levels check out the infographic on page 12. Vocational courses relate to specific areas of work, rather than academic subjects. In many vocational courses, you will build a portfolio of evidence and be given regular assignments (coursework) rather than exams. You may have some exams but usually this makes up a smaller proportion of your final grade.

Study Programmes

You may not have heard of study programmes before, but they are certainly a great option to consider. With study programmes you will gain a recognised qualification (for example, a BTEC or vocational course) alongside a substantial work placement. Typically you will also gain additional soft skills alongside your main qualifications such as communication. You may be eligible to receive a bursary, which is basically money to help you while you're studying.

T Levels

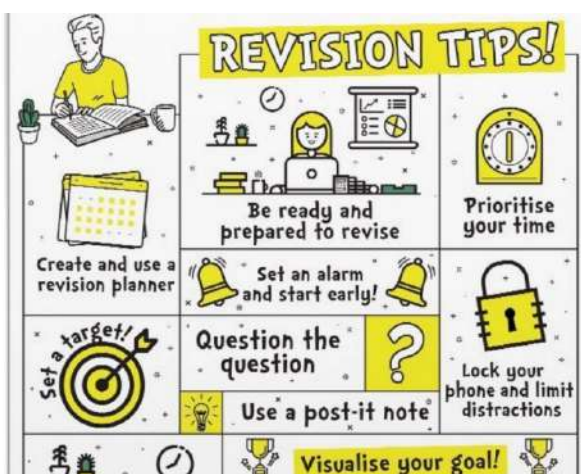

T levels are a new type of qualification aimed at specific career paths. They are good if you've got a rough idea of the kind of work you want to go into. The introduction of T levels began in September 2020 and will continue until September 2023. They last two years in length and are equivalent to 3 A-levels. T levels include a technical qualification (TQ), a work placement for at least 45 days plus maths and English if you didn't gain this at school.

Read a book

- Improving your reading skills will help you in all subjects
- Find lots of books on the Sora app

Make corrections and improvements

- Look at teacher comments in your exercise books or Class Notebooks
- See how you can improve previous work and have another go at it
- Look at any quizzes that your teachers have returned. Make notes on anything you got wrong and learn

Make a 'to-do list'

- In OneNote (top of the page)
- Using 'Notes' on your iPad
- Or just on paper!

Organise/tidy your notes

- Organise and tidy up work in your OneNote notebooks
- Group pages together so your notes are in order
- Turn pages into subgroups so that topics are together

Complete classwork & coursework

- Complete any work in your OneNote notebooks, exercise books, folders, OneDrive, etc.

Complete exam questions/papers

- Check the exam board with each of your subjects, then search for past exam papers and mark schemes

GARDEN CLUB

Thursday 25th November 3.15 til 4.15 p.m.
in the Workshop

Another chance to make or finish your bird feeders. Meet in the Workshop. Feel free to bring additional bottles or other items to embellish your bird feeder.

We will also be doing some planning and making posters.

All welcome – any year group, and you don't have to know anything about gardening!

Christmas has begun in Mrs Fower's Classroom with her very own Chemis-tree. Make sure you come and see it and tell Miss all the crucial knowledge shown in the tree for an event log.

On Friday Y11 started their mock exams with a day in Art and 3D Art. We have been so impressed with their attitudes to learning and revision and we know they will do us all proud. Good luck everyone!

A big thank you to ALL the **PEER MENTORS**, they have been amazing and helped each other! Also to **7YM** for their Anti-Bullying week posters!

BioArtAttack Competition Open to all

Want to combine science and art, then enter this exciting national competition.

Compete against schools all over the world.

The artwork can be anything; drawings, knitting, clay, plasticine, sewing... no limits on imagination

The rules :-

You also need to tell us in writing a bit about your piece, including:

- The title of your piece
- Equipment and materials used
- What your piece depicts
- The science behind your piece

How it's judged:-

- the variety of materials used
- the variety of creative skills used
- the aesthetic quality of the piece
- the originality of the piece
- how well the piece captures the biological basis of the subject matter

See Mr. Farr for more information
