AP: Alfie Boulton in 7/3. He is beautiful! He works consistently hard every single lesson and always has his hand up to contribute to classroom discussions.

Mystery Genre Books

All books shown are available on Sora.

Even if we break by Marieke Nijkamp. A book and an audiobook! A seven hour, mystery audio book about a group of friends who go to a cabin to play murder mystery game...

Only to have to game turned against them!

The Cheerleaders by Kara Thomas.

There are no more cheerleaders in the town of Sunnybrook.

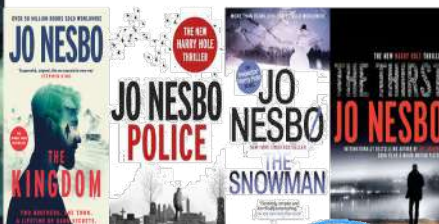

First there was the car accident—two girls dead after hitting a tree on a rainy night. Not long after, the murders happened. Those two girls were killed by the man next door...

Rhiannon's recommendation

I am currently reading Knife by Jo Nesbo.

I am enjoying the book so far, and cannot wait to read many more of Jo's books. I would recommend to anyone who likes a good murder mystery book.

What is International Day of Persons with Disabilities?

The estimated **one billion people living with disabilities worldwide** face many barriers to inclusion in some key aspects of society. As a result, they do not enjoy access on an equal basis as others which includes areas such as transportation and employment but also social participation like politics or entertainment.

International Day of Persons with Disabilities falls on the 3rd of December each year, with the aim of **promoting empowerment**, and helping to create real opportunities for people with disabilities. This enhances their own capacities and supports them in setting their own priorities. Empowerment involves investing in people in jobs, health, nutrition, education, and social protection. When people are empowered, they are better prepared to **take advantage of opportunities**, they become agents of change and can more readily embrace their civic responsibilities.

Did you know?

Of the one billion population of persons with disabilities, 80% live in developing countries. An estimated 46% of older people aged 60 years and over are people with disabilities. One in every five women is likely to experience disability in her life, while one in every ten children is a child with a disability.
