At the moment, we are designing scarecrows for a competition! We will choose the best one which we will then make into a real scarecrow that will hopefully be on display at the Dorothy Clive garden in September. We have started thinking about it, but anyone can come along and join in – so get your thinking caps on!

Independent Learning Sessions

How should I use my time?

Learn/test your Crucial Knowledge

- Pick a subject, then use the Crucial Knowledge resources to test yourself and learn anything you don't know
- You can find all the resources here: <https://www.ccsc.staffs.sch.uk/index.php/2013-09-25-09-25-35/all-files/crucial-knowledge>

Complete all your Crucial Knowledge quizzes

- Work through all set Assignments in Teams
- Work through Educake, Kahoot, etc. quizzes set by your teachers

Make a 'to-do list'

- In OneNote (top of the page)
- Using 'Notes' on your iPad
- Or just on paper!

Organise/tidy your notes

- Organise and tidy up work in your OneNote notebooks
- Group pages together so your notes are in order
- Turn pages into subgroups so that topics are together

Read a book

- Improving your reading skills will help you in all subjects
- Find lots of books on the **Sora** app

Work through extra subject resources

- Go to your Teams classes
- Work through the extra resources that your teacher has put in your class Teams
- These resources will help to **extend your subject knowledge**

Complete classwork & coursework

- Complete any work in your OneNote notebooks, exercise books, folders, OneDrive, etc.

Make corrections and improvements

- Look at teacher comments in your exercise books or Class Notebooks
- See how you can improve previous work and have another go at it
- Look at any quizzes that your teachers have returned. Make notes on anything you got wrong and learn

Well done to Mrs Formosa and her team at Chesterton Primary!

ASK THE EXPERT

“Progress requires building blocks”

Stella Formosa explains why we must focus on crucial knowledge in order to address lost learning

Why is crucial knowledge so important?

With student and staff absence, schools have been decimated by Covid. Add the summer learning loss yet to come and many children will continue to struggle. It's a mountain to climb. I don't see myself as an expert but have upskilled my team to be experts. Children need building blocks to progress to the next stage of learning. Our routines and structures focused on crucial knowledge mean we all work on establishing the same firm foundations.

How does this work in practice?

We have written our own curriculum, which is stripped back to crucial knowledge and made relevant for our children. Even enrichment of the curriculum is linked to crucial knowledge. We prioritise reading to enable progress in other subjects with strong phonics in place, and every half term we have a re-cap week, so children are confident before new learning is added. However, maths presents the biggest challenge as new knowledge can't be acquired easily, unlike reading.

How do you address lost learning in maths?

We use tuition and catch-up provision to fund after-school and in-person tuition. We use White Rose Maths for materials, and work with Whizz Education and the virtual tutor Maths-Whizz to keep enthusiasm going. Maths-Whizz is great as we can set homework and use it in class to back up learning. Despite the challenges, we have a positive perception of maths as Maths-Whizz pitches lessons for individual's needs and so children feel successful.

EXPERT PROFILE

Name: Stella Formosa

Job title: Head teacher, Chesterton Primary

Area of expertise: Organisation and developing staff to build a team of experts that deliver crucial knowledge and prioritise learning effectively

Best part of my job: Seeing children progress

How important is assessment?

We know there are gaps in learning. The data provided by Whizz Education enables our maths coordinator and class teachers to continually assess, identify and target lessons. The virtual tutor automatically focuses on weaker areas for individual students. If we identify a whole-class issue, we tend to pull back and re-align. In this way we can use the real-time data to 'course correct' to ensure we are addressing all areas of crucial knowledge.

How have you made maths a positive experience?

As a result of Covid, we have children with attachment issues – some just don't want to be in school after so much time at home, and having Maths Whizz helps. It's been a tough time for everyone. Maths has traditionally been the subject no-one likes! However, with Maths-Whizz children are motivated with games, awards and trophies. It works for parents, children and staff, and enables us to make progress in challenging times.

ASK ME ABOUT

IMPACT: Keep it simple. Focus on prioritisation and what creates the greatest impact on learning crucial knowledge

CPD: Upskill and empower staff to become the experts in edtech, and ensure everyone drives a key area

IMPROVEMENT: Every aspect of the school needs to be working towards improving learning outcomes. If not, change it!

Mr Salt was very happy with our Year 10 boys' football performance yesterday. Scores were:

- STB 2 – 4 CCSC
- Madeley 2 – 2 CCSC
- CCSC 0 – 4 Clayton

Well done to all. - you represented us brilliantly as normal!

Our Book Club had a fantastic morning yesterday with the wonderful children at St Chad's. Thanks so much for having us!

Fantastic news and a HUGE welcome to Bursley Academy who have now officially joined our Trust.

The Year 9 and 10 GCSE Drama students enjoyed a physical theatre/ devising workshop at Stoke Sixth Form College yesterday. Everyone worked hard and they were all a credit to the school as always.

STEM Club takes place every Wednesday after School in Room 22. Last week they used coins to produce a voltage. Come along this week and get involved.

Don't forget to check you emails and Teams daily to complete your homework quizzes!
