## **CONTEXT**

From 5<sup>th</sup> January 2021 parents were asked to support public health efforts by keeping their children at home, wherever possible.

Schools and all childcare providers were asked to provide onsite education for a limited number of children - children who are vulnerable, and children whose parents are critical to the COVID-19 response and cannot be safely cared for at home.

Schools must continue to have regard to the statutory safeguarding guidance, keeping children safe in education. [Keeping children safe in education \(publishing.service.gov.uk\)](https://www.publishing.service.gov.uk/government/uploads/system/uploads/attachment_data/file/90222/keeping-children-safe-in-education.pdf)

**This is an addendum to the Chesterton Community Sports College Safeguarding, and Child Protection policy.**

**Designated Safeguarding Lead :- Deryth Machin**

**Deputy Designated Safeguarding Lead :- Deb Fox**

**Chair of Governors :- Roy Dutton**

**Safeguarding Governor:- Roy Dutton**

## **Vulnerable Children**

Vulnerable children include those who have a social worker and those children and young people up to the age of 25 with education, health and care (EHC) plans

Those who have a social worker include children who have a Child Protection Plan and those who are looked after by the Local Authority. Vulnerable children and young people include those who:

- are assessed as being in need under section 17 of the Children Act 1989, including children and young people who have a child in need plan, a child protection plan or who are a looked-after child
- have an education, health and care (EHC) plan
- have been identified as otherwise vulnerable by educational providers or local authorities (including children's social care services), and who could therefore benefit from continued full-time attendance, this might include:
  - children and young people on the edge of receiving support from children's social care services or in the process of being referred to children's services
  - adopted children or children on a special guardianship order
  - those at risk of becoming NEET ('not in employment, education or training')
  - those living in temporary accommodation
  - those who are young carers
  - those who may have difficulty engaging with remote education at home (for example due to a lack of devices or quiet space to study)
  - care leavers
  - others at the Headteacher discretion including pupils and students who need to attend to receive support or manage risks to their mental health

[Children of critical workers and vulnerable children who can access schools or educational settings - GOV.UK \(www.gov.uk\)](https://www.gov.uk/guidance/children-of-critical-workers-and-vulnerable-children-who-can-access-schools-or-educational-settings)

We recognise that previously looked after children are a potentially vulnerable group who may not have a social worker and will consider the support and offer to this cohort of children. In particular families and friend's carers may need additional support. Some previously looked after children may still have significant emotional wellbeing needs linked to their journey into care. Education settings have a key role in supporting the stability of those children with special guardianship orders or in adoptive homes.

Those with an EHC plan will be risk-assessed in consultation with the Local Authority and parents, to decide whether they need to continue to be offered a school or college place in order to meet their needs, or whether they can safely have their needs met at home. This could include, if necessary, carers, therapists or clinicians visiting the home to provide any essential services. Many children and young people with EHC plans can safely remain at home.

Eligibility for free school meals in and of itself should not be the determining factor in assessing vulnerability.

Senior leaders, especially the Designated Safeguarding Lead (and deputy) know who our most vulnerable children are. They have the flexibility to offer a place to those on the edge of receiving children's social care support.

We will continue to work with and support children's social workers to help protect vulnerable children. This includes working with and supporting children's social workers and the Local Authority

virtual school head (VSH) for looked-after and previously looked-after children. We will work with social workers to ensure that Personal Education Plans (PEPs) for Looked After Children are up to date with the current education offer that looked after children are accessing.

The DSL will continue to provide support to teachers and pastoral staff to ensure that contact is maintained with children (and families) who are not attending school.

Schools are expected to allow and strongly encourage vulnerable children and young people to attend. Parents/carers of vulnerable children and young people are strongly encouraged to take up the place. If vulnerable children and young people do not attend, we will:

- work together with the local authority and social worker (where applicable) to follow up with the parent or carer to explore the reason for absence, discussing their concerns using supporting guidance considering the child's circumstances and their best interests
- work together with the local authority and social worker (where applicable) and other relevant partners to encourage the child or young person to attend educational provision, particularly where the social worker agrees that the child or young person's attendance would be appropriate

Where schools grant a leave of absence to a vulnerable child or young person they should still speak to parents and carers, and social workers (where applicable) to explore the reasons for this and any concerns raised. The discussions should focus on the welfare of the child or young person and ensuring that the child or young person is able to access appropriate education and support while they are at home.

Where providers have had to temporarily stop on-site provision on public health advice, they should inform the local authority to discuss alternative arrangements for vulnerable children and young people and work towards welcoming back pupils as soon as possible, where feasible to do so.

Where parents are concerned about the risk of the child contracting COVID19, the school or the social worker will talk through these anxieties with the parent/carer following the advice set out by Public Health England.

### **Attendance**

During this period of national lockdown schools will remain open to vulnerable children and young people and the children of critical workers only. All other pupils should receive remote education. Pupils who are self-isolating should not attend school. Clinically extremely vulnerable pupils are also advised not to attend school.

We will continue to record attendance in the register as per the guidelines issued from the DfE. We will follow up on absences of the pupils who are expected to be in school but where a parent wishes for their child to be absent, we may authorise the absence during this national lockdown period.

Shielding advice is currently in place, and so all children still deemed clinically extremely vulnerable are advised not to attend school.

The school and social workers will agree with parents/carers whether children in need should be attending school and we will then follow up on any pupil that they were expecting to attend, who does not.

We will also follow up with any parent or carer who has arranged care for their child(ren) and the child(ren) subsequently do not attend.

Phone calls will be made to the parents/carers in these circumstances.

In all circumstances where a vulnerable child does not take up their place at school, or discontinues, we will notify their social worker.

### **Critical workers**

Parents whose work is critical to the coronavirus (COVID-19) and EU transition response include those who work in health and social care and in other key sectors outlined in the following sections. Children with at least one parent or carer who is a critical worker can go to school or college if required, but parents and carers should keep their children at home if they can. The list of critical workers can be found using the following link or by accessing the Government (DfE) website).

[Critical workers and vulnerable children who can access schools or educational settings - GOV.UK \(www.gov.uk\)](https://www.gov.uk/government/news/critical-workers-and-vulnerable-children-who-can-access-schools-or-educational-settings)

### **Safeguarding and reporting of concerns**

Where staff have a concern about a child, they should continue to follow the process outlined in our Safeguarding Policy.

Staff are reminded of the need to report and record any concern immediately and without delay.

Where staff are concerned about an adult working with children in the school, they should report the concern to the headteacher.

If there is a requirement to make a notification to the headteacher whilst away from school, this should be done verbally over the phone and followed up with an email to the head teacher to confirm the discussion.

Concerns around the Headteacher should be directed to the CEO.

Schools must continue to have regard to the statutory safeguarding guidance, keeping children safe in education.

It will be important that all staff working in the school are aware of this revised policy addendum.

There should be no change to local multi-agency safeguarding arrangements, which remain the responsibility of the three safeguarding partners (local authorities, clinical commissioning groups and chief officers of police). We expect all local safeguarding partners to be vigilant and responsive to all safeguarding threats and ensure vulnerable children and young persons are safe – particularly as more children and young people will be learning remotely.

### **Designated Safeguarding Lead**

It is expected that normally there will be a trained DSL (or deputy) available on site. However, it is recognised that there may be operational challenges to this. In such cases, there are two options to consider:

- a trained DSL (or deputy) from the school can be available to be contacted via phone or teams, for example working from home
- sharing trained DSLs (or deputies) with other schools in the Trust (who should be available to be contacted via phone or online video)

Where a trained DSL (or deputy) is not on site, in addition to one of the above options, a senior leader should take responsibility for co-ordinating safeguarding on site.

This might include updating and managing access to child protection online systems and liaising with the offsite DSL (or deputy) and as required liaising with children's social workers where they require access to children in need and/or to carry out statutory assessments at the Academy.

The DSL will ensure all relevant safeguarding and welfare information held on children remains accurate, and complete. If a child from our school attends another setting, we will do what we can reasonably to provide the receiving institution with relevant welfare and child protection information

It is important that all staff and volunteers have access to a trained DSL (or deputy). On each day staff on site will be made aware of that person is and how to speak to them.

The DSL will continue to engage with social workers, and attend all multi-agency meetings, which can be done remotely.

### **Safeguarding Training and Induction**

All existing school staff at school have had safeguarding training and have read part 1 of Keeping Children Safe in Education (2020). The DSL should communicate with staff any new local arrangements, so they know what to do if they are worried about a child.

Where new staff are recruited, or there are new volunteers they will continue to be provided with a safeguarding induction.

If staff are deployed from another education or children's workforce setting to our school, we will consider the DfE supplementary guidance on safeguarding children during the COVID-19 pandemic and will accept portability as long as the current school confirms in writing that: -

- the individual has been subject to an enhanced DBS and children's barred list check
- there are no known concerns about the individual's suitability to work with children
- there is no ongoing disciplinary investigation relating to that individual
- that the member of staff has received appropriate safeguarding training.

Upon arrival, they will be given a copy of our child protection policy, confirmation of local processes and confirmation of DSL arrangements.

### **Safer recruitment/volunteers and movement of staff**

It remains essential that people who are unsuitable are not allowed to enter the children's workforce or gain access to children. When recruiting new staff, we will continue to follow the relevant safer recruitment processes for their setting, including, as appropriate, relevant sections in part 3 of Keeping Children Safe in Education (2020) (KCSIE). Schools must comply with their legal duties regarding pre-appointment including having regard to part three of the statutory safeguarding guidance keeping children safe in education.

Where we are utilising volunteers, we will continue to follow the checking and risk assessment process as set out in paragraphs 167 to 172 of KCSIE. Under no circumstances will a volunteer who has not been checked be left unsupervised or allowed to work in regulated activity.

We will continue to follow the legal duty to refer to the DBS anyone who has harmed or poses a risk of harm to a child or vulnerable adult. Full details can be found at paragraph 163 of KCSIE.

We will also continue to consider and make referrals to the Teaching Regulation Agency (TRA) as per paragraph 166 of KCSIE and the TRA's 'Teacher misconduct advice for making a referral. During the COVID-19 period all referrals should be made by emailing: [misconduct.teacher@education.gov.uk](mailto:misconduct.teacher@education.gov.uk)

### **Volunteers**

Volunteers may be used to support the work of the school, as would usually be the case. It is important that they are properly supported and given appropriate roles. Where schools are using

volunteers, they should continue to follow the checking and risk assessment process as set out in the volunteer section in part 3 of keeping children safe in education.

Under no circumstances will a volunteer who has not been checked be left unsupervised or allowed to work in regulated activity. Mixing of volunteers across groups should be kept to a minimum, and they should remain 2 metres from pupils and staff where possible.

Existing volunteers in regulated activity do not have to be re-checked if they have already had a DBS check (which includes barred list information).

Supervision must be:

- by a person who is in regulated activity.
- regular and day to day; and
- reasonable in all the circumstances to ensure the protection of children.

### **Online safety**

We will continue to provide a safe environment, including online. This includes the use of an online filtering system. Where pupils are using computers in school, appropriate supervision will be in place.

### **Children and online safety away from school**

It is important that all staff who interact with children, including online, continue to look out for signs a child may be at risk. Any such concerns should be dealt with as per the Child Protection Policy and where appropriate referrals should still be made to children's social care and as required, the police.

Online teaching should follow the same principles as are in place in the real classroom.

We will ensure any use of online learning tools and systems is in line with privacy and data protection/GDPR requirements.

Staff have all had appropriate instructions for carrying out live lessons, including

- Training and support in the operating system so inappropriate use by pupils can be dealt with quickly
- Staff and children must wear suitable clothing, as should anyone else in the household.
- Any computers used should be in appropriate areas
- Language must be professional and appropriate, including any family members in the background, microphones should be muted when participant is not speaking
- Staff must only use platforms specified by senior leaders and approved by our IT network manager / provider to communicate with students
- Staff should monitor attendance of any sessions held using the normal school system and report any safeguarding concerns in the usual way
- The behaviour policy should still be used and the school systems will deal with any poor behaviour identified.

It is important that all staff who interact with children, including online, continue to look out for signs a child may be at risk. Any such concerns should be dealt with as per the Child Protection Policy and where appropriate referrals should still be made to children's social care and as required, the police. Online teaching should follow the same principles as in school teaching.

## **Delivering remote education safely**

Keeping children safe online is essential. <https://www.gov.uk/government/publications/keeping-children-safe-in-education--2>

The statutory guidance keeping children safe in education provides schools and colleges with information on what they should be doing to protect their pupils online. Support on delivering online remote education safely is available from:

- [safe remote learning](#) safe remote learning, published by SWGfL
- [online safety](#) online safety and safeguarding, published by LGfL, which covers safe remote learning
- the National Cyber Security Centre, which includes which video conference service is right for you and using video conferencing services securely [video conferencing](#)
- [safeguarding and remote education during coronavirus Covid-19](#) safeguarding and remote education during coronavirus (COVID-19)
- annex C of keeping children safe in education  
<https://www.gov.uk/government/publications/keeping-children-safe-in-education--2>

## **Supporting children not in school**

We are committed to ensuring the safety and wellbeing of all our Children and Young people.

Where the DSL has identified a child to be on the edge of social care support, or who would normally receive pastoral-type support in school, they should ensure that a robust communication plan is in place for that child or young person.

Details of this plan must be recorded as should a record of contact have made.

The communication plans can include; remote contact, phone contact, door-step visits. Other individualised contact methods should be considered and recorded.

The DSL will work closely with all stakeholders to maximise the effectiveness of any communication plan. This plan must be reviewed regularly (at least once a fortnight) and where concerns arise, the DSL will consider any referrals as appropriate.

We will share safeguarding messages on our website and social media pages, as appropriate.

We recognise that school is a protective factor for children and young people, and that the current circumstances, can affect the mental health of pupils and their parents/carers. All school staff are aware of this in setting expectations of pupils' work where they are at home.

We will ensure that appropriate support is in place for children of critical workers and vulnerable children on site.

## **Supporting children in school**

We are committed to ensuring the safety and wellbeing of all our pupils. Our Governors and Head Teacher will ensure that appropriate staff are on site and staff to pupil ratio numbers are appropriate, to maximise safety.

We will continue to follow the Government guidance for education and childcare settings on how to implement social distancing and continue to follow the advice from Public Health England on handwashing and other measures to limit the risk of spread of COVID19.

Where the Headteacher has concerns about the impact of staff absence – such as the Designated Safeguarding Lead or first aiders – they will discuss them immediately with the CEO.

## **Mental Health**

We are aware of the impact of the negative experiences and distressing life events on the mental health of children, parents and staff. We will, as we always have, ensure there is appropriate support and signposting to relevant support agencies in place, and also supporting those children who continue to work from home

Pupils may be experiencing a variety of emotions in response to the coronavirus (COVID19) outbreak, such as anxiety, stress or low mood. This may particularly be the case for vulnerable children, including those with a social worker and young carers. It is important to contextualise these feelings as normal responses to an abnormal situation. Some may need support to re-adjust, either to a return to learning at home or being in school without their peers, and some may be showing signs of more severe anxiety or depression. Others will not be experiencing any challenges and will be content with the change in circumstances.

The return to remote learning for most will limit pupils' social interaction with their peers, carers and teachers, which may have an impact on wellbeing.

To support school staff to understand how coronavirus (COVID-19) is affecting children and young people's mental health and wellbeing, and what they can do to look after, promote and support their own, other staff's and children and young people's wellbeing and mental health, the government has recently launched the [wellbeing for Education Return programme](#)

We will continue to provide more focused pastoral support where issues are identified that individual pupils may need help with, drawing on external support where necessary and possible.

We will consider the provision of pastoral and extra-curricular activities to all pupils, including those learning at home (for example through online activities and assemblies), designed to:

- Support social engagement and maintaining friendships
- Address and equip pupils to respond to issues linked to coronavirus (COVID-19)
- Support pupils with approaches to improving their physical and mental wellbeing

We should consider how we are working with school nursing services to support the health and wellbeing pupils; school nursing services are continuing to offer support to pupils in school and working remotely– school nurses as leaders of the healthy child programme can offer a range of support including:

- support for resilience, mental health and wellbeing including anxiety, bereavement and sleep issues
- support for pupils with additional and complex health needs
- supporting vulnerable children and keeping children safe Schools and school nurses need to work together to ensure delivery of the [healthy child](#) programme (which includes immunisation), identifying health and wellbeing needs which could affect mental health.

## **Peer on Peer Abuse**

We recognise that during the closure a revised process may be required for managing any report of such abuse and supporting victims. Where we receive a report of peer on peer abuse, we will follow the principles as set out in part 5 of KCSIE and of those outlined within the Child Protection Policy. Our school will listen and work with the young person, parents/carers and any multiagency partner required to ensure the safety and security of that young person.

Concerns and actions will be recorded and appropriate referrals made.
